

Electric Vehicle Charging Solutions

Commercial Level 2 and 3

A Pioneer in Electric Vehicle Charging Stations Solutions

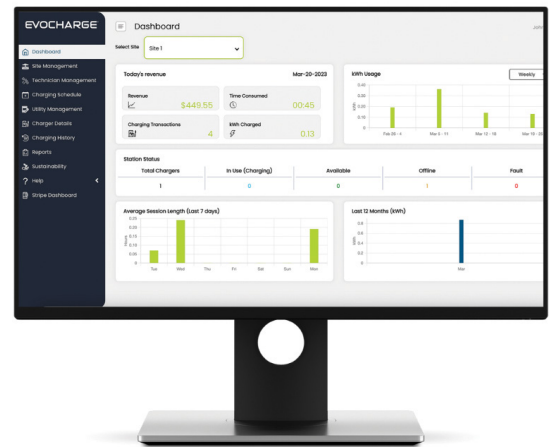

EvoCharge, founded in 2009, represents one of North America's original vehicle electrification providers and pioneer of home and commercial charging solutions. EvoCharge is a brand of Phillips and Temro Industries®, a trusted partner to major global OEMs and aftermarket provider of engineered systems for automotive, trucking and off-road vehicles for over 100 years.

As an industry leader in Electric Vehicle Supply Equipment (EVSE) and cable management solutions, EvoCharge provides the most reliable, safe, and cost-effective charging stations and cable management systems for single-family, multi-family, workplace, and other commercial spaces. EvoCharge products are fully compatible with all EV and Plug-in Hybrid Electric Vehicles (PHEV) sold throughout the United States and Canada.

EvoCharge Network

EvoCharge Network is a fully integrated EV charging solution. This network software adds an easy way to manage EvoCharge charging stations, including payment processing, access controls, monitoring, and reporting capabilities. Focused on the needs of businesses such as hotels, multi-unit housing, workplaces, and fleets, property owners and managers can select the applicable, affordable, subscription tier to best meet the needs for EV charging within their site.

- Tiered plan options that match business needs
- Scale ports as demand changes
- Improve uptime with real-time monitoring
- Simplify setup with integrated technician portal

Tax and Rebates Incentives

EvoCharge charging stations may be eligible for utility discounts and rebates, and state or federal tax credits. Links to the U.S. and Canada Incentives and States with EvoCharge listed rebates can be accessed at evocharge.com/tax-rebates.

Level 2 AC Chargers

Select charger and connectivity based on your needs – Non-networked, WiFi, LTE, ethernet and RFID.

50 Amp – Small, sleek profile takes up less space. Wall and pedestal mounting options.

80 Amp – Ideal for fleets, lt. duty trucks for the fastest AC charging option.

Level 3 DC Fast Chargers

Advanced charging systems provide the optimal solution for commercial fleet, medium and heavy-duty applications. Scalable to grow with charging demands.

Mobile DC Charger – Provide fast charging on a moveable platform. Perfect for service centers where you need to bring DC charging to the vehicle.

Integrated Power Station – All-in-one DC fast charging. Saves space with combined Power Cabinet and charger ports.

Power Stations and Cabinet – Fully scalable solution for adding power supply as EV needs increase.

Charging Station Accessories

Pedestals

Create a convenient, clean, and safe charging area with a pedestal configuration that meets your needs.

Concealed pedestals – hidden electrical raceway, mount one or two charging stations.

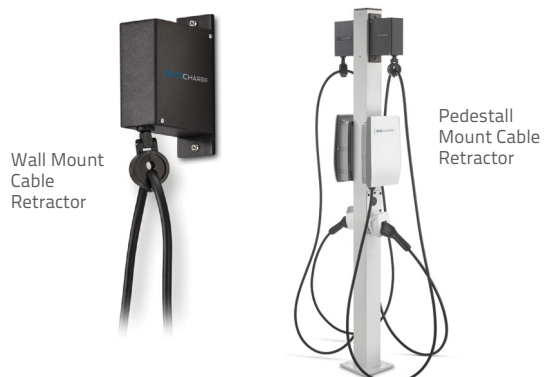

Integrated Retractor Pedestal – A complete all-in-one solution with retractable cable management. Great for single or dual charging.

Credit Card Payment Kiosk – Connect with networked chargers requiring physical card reader on site.

Cable Retractors

- Wall or pedestal mount
- Single or Dual 6 ft. Concealed Pedestal (charger sold separately)
- Works with Level 2 charging cables
